## **ABSTRACT**

This is a sample page and shows the desired format and appearance of a manuscript prepared for the International Workshop on Thermal Detectors. Whenever possible pages should be formatted in the US standard letter format (8.5 x 11 inches). If you have to use the European A4 format, please be sure to adjust the margins accordingly. Margins for standard letter format: 1.25 inches (3.2 cm) left and right, 1 inch (2.5 cm) top and bottom. Margins for A4 format: 1.1 inches (2.8 cm) left and right, 1 inch (2.5 cm) top, and 1.7 inches (4.6 cm) on the bottom. For proper printing all text, tables and figures must fit within these margins. The font should be Times (New) Roman for the entire manuscript. The paper title should be centered and capitalized on top of the first page and printed in 16 pt bold font. The list of author(s) follows the title in normal 12 pt font, centered. Affiliations should be given after the author(s) names(s), again centered. If necessary, use numeric superscripts to correlate authors<sup>1</sup> and <sup>1</sup>affiliations. The principal author's email address and (optional) phone and fax numbers should be given as a footnote in italic 10pt font and within the page margins,  
Do not number your pages or use any headers or footers.

## **INTRODUCTION - PRINCIPAL HEADINGS**

Principal headings should be centered in the text block and capitalized in 12 pt bold font. Main text should be in 10 pt normal font, justified and single spaced in the text block. Reference citations should be typed in the text as sequential numeric superscripts<sup>1</sup> and listed under the final principal heading "References".

### **Subheadings**

Subheadings should be left aligned in 12 pt bold font. Formulae like formula (1) should be centered in the text block and sequentially numbered:

$$E = mc^2 \quad (1)$$

### **Length of manuscripts**

Manuscripts of invited presentations should not exceed 6 pages, manuscripts of contributed presentations should not exceed 4 pages.

*Contact information for J.F. Doe: Email: jfdoe@free.net.fr, phone (33) 299-451-8456*

## Figures

We strongly encourage the use of black & white figures only. If you have an important need for color, please contact us at: [<manuscript\\_tdw@lepvax.gsfc.nasa.gov>](mailto:manuscript_tdw@lepvax.gsfc.nasa.gov)

*Figure 1: Figure captions start with the figure number and should be typed in 10 pt italic font.*

## Tables

All tables must fit within the text block margins. They should have a title typed in 10 pt italic font.

*Table 1: Natural numbers squares*

Natural number	Natural number square
1	1
2	4

## FILE TYPES AND NAMING

To comply with the preferences of the printing service that we will be using, we request your manuscript to be submitted as an MS Word file. For naming the file containing your article, please use the principal author's last name followed by the presentation's number in the workshop advance program.

## DEADLINE FOR MANUSCRIPT SUBMISSION

Manuscripts must be submitted no later than June 10, 2003. Electronic submission by email to [<manuscript\\_tdw@lepvax.gsfc.nasa.gov>](mailto:manuscript_tdw@lepvax.gsfc.nasa.gov) is strongly encouraged. If you encounter difficulties with that, please contact us at the same email address.
